DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 8 (starting at the last paragraph), filed 25 April 2007, with respect to the objection to the specification have been fully considered and are persuasive. The objection of 14 March 2007 has been withdrawn.

Allowable Subject Matter

2. As previously indicated, claims 1-10, 12, and 13 allowed. Prior art fails to disclose or render obvious a lamp cap having two surfaces, one substantially flat and one substantially cylindrical wherein one surface has two electrically insulated parts where each part has electrical connection means for providing power to an electric lamp. Furthermore, prior art fails to show or teach the first part covering a portion of the cylindrical surface being freely movable in a radial direction and another portion of the first part being fixedly attached to a portion of the flat surface and the second part covering the remainder of the relevant surface of the cap.

3. Claim 14 is allowed. Prior art fails to disclose or render obvious method for fixing an electric lamp having two surfaces, one substantially flat and one substantially cylindrical wherein one surface has two electrically insulated parts where each part has electrical connection means for providing power to an electric lamp. Furthermore, prior art fails to show or teach the first part covering a portion of the cylindrical surface being freely movable in a radial direction and another portion of the first part being fixedly attached to a portion of the flat surface and the second part covering the remainder of the relevant surface of the cap.
